

## Capability Statement

iMed Biomedical is a nationwide medical equipment repair and preventive maintenance provider specializing in reliable, fast-turnaround service for hospitals, surgery centers, and federal healthcare systems. As an SDVOSB, we deliver disciplined execution, transparent communication, and high-quality technical support nationally.

### Core Capabilities

#### Medical Equipment Repair (Depot & On-Site)

- Comprehensive service for biomedical, respiratory, and specialty devices, aligned to OEM standards.

#### Preventive Maintenance Programs

- TJC, CMS, and NFPA-compliant PM procedures with a focus on safety and regulatory readiness.

#### Supplemental Biomedical Staffing

- Short-term, long-term, and surge support to stabilize HTM departments.

#### Parts Sourcing & Logistics

- Efficient parts management to reduce equipment downtime.
